

Dear Commissioner Henney,

I would like to be able to buy my milk rBGH free. Please implement a national standard of guidelines so that, at the very least, consumers are informed that their milk is not just milk, then only can they make a proper informed decision to boycott rBGH and buy organic. If you would like, you could skip this stage, follow Europe's lead, and ban this nasty product.

Thank you for your consideration,

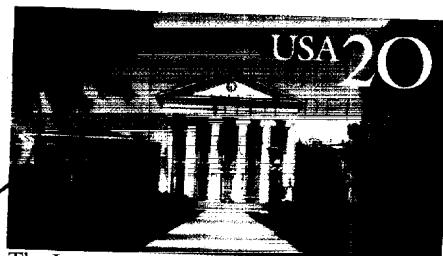

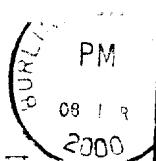

Wende C. Bitler 731 Tyler Bridge Rd
